🚩 Indian

📅 05/02/1997

PMP-certified professional with a unique blend of technical execution and business strategy. Currently delivering web development, automation, and digital communications solutions at Qatar University, backed by an MSc in Business Management and prior industry experience across the UK and Qatar. Adept at translating complex technical work into business value — now looking to apply that same bridge-building strength in a dedicated Project/Product Management capacity.

Experience

Web Developer, Qatar University

03/2026 | Doha, Qatar

Digital Systems & Automation Specialist responsible for enterprise web content management, digital signage infrastructure, workflow automation, and cross-departmental digital delivery within a Microsoft 365/SharePoint environment. Scope spans front-end development, business process automation, multilingual (Arabic/English) content operations, and stakeholder coordination across university departments and IT Services

Developer/Founder, <https://tinyurl.com/erplh> 🔗

08/2024 – Present | Doha, Qatar

LunaraHR is a modern HR management system designed to simplify and automate core HR processes for businesses of all sizes with AI at its core components.

Application Consultant, Clarivos

03/2022 – 08/2024 | London, United Kingdom

Designed, implemented, and continuously refined Tagetik EPM solutions for diverse clients across Europe, streamlining financial planning, budgeting, and reporting processes. These solutions contributed to improved decision-making and supported the successful delivery of strategic business objectives.

Internship - System Controller, Qatar Airways

06/2018 – 08/2018 | Doha, Qatar

- Oversaw database performance, ensuring reliable operations and resolving issues promptly.
- Supported data migration from Oracle to PostgreSQL systems, managing integration and ensuring seamless transitions to maintain data integrity and operational continuity for financial and operational processes.

Internship - Backend Systems, Doha Bank

12/2017 – 02/2018 | Doha, Qatar

- Learned how technology systems integrate across departments, ensuring efficient operations and coordination.
- Contributed to system maintenance and troubleshooting, supporting seamless functionality for applications and services.

Education

MSc- Business Management, University of Surrey

02/2021 – 02/2022

Guildford, United Kingdom

Served as course representative during Master's in Business Management at University of Surrey, strengthening leadership, communication, and organisational skills—key to managing client relationships, coordinating teams, and driving success in collaborative business environments.

B-Tech- Computer Science Engineering, NIT Jalandhar

2015 – 2019 | Jalandhar, India

Acquired a strong foundation in programming, algorithms, databases, and system design, with hands-on experience in problem-solving and software development

Higher Secondary School, Ideal Indian School

04/2009 – 05/2015 | Doha, Qatar

Learned to collaborate with classmates from diverse cultures, which helped me develop skills to work effectively with people from various backgrounds

Skills

- Google Certified IT professional
- GitHub Project Management
- PostgreSQL
- Java
- PMP®-Certified

- Tagetik Expert Certified
- AWS Certified
- MySQL
- Machine Learning

Training/ Projects

Founder/Developer - Lunarahr.com, Next Gen AI-Driven HRMS System

Consultant - MSc, University of Surrey, Nissan Motor Corporation

Assisted Nissan UK with their shipment decanting issue concerning imported items and proposed an effective solution as a consultant

B-Tech- NIT Jalandhar - Facial Attendance System designed for Universities

Developed a facial recognition system to identify students and automate attendance tracking efficiently. Leveraged cloud technologies such as Microsoft Azure and Google Firebase, demonstrating scalable, secure solutions applicable to enterprise-level workforce management systems.

Migration Guide - Qatar Airways

Migration guide was made for Qatar Airways assisting their future system transitions from Oracle Systems to PostgreSQL DBs.
